

Post Construction Cleaning Checklist

1. Stage 1 – Rough Clean: Remove construction debris, sweep/vacuum all rooms, bag rubbish safely.
2. Dust Extraction: HEPA vacuum plaster dust from ceilings, cornices, walls, skirtings, sockets, and tracks.
3. Sticker & Film Removal: Remove protective films, labels, and adhesives from appliances, joinery, windows and fixtures.
4. Paint & Render Splatter: Carefully scrape residues from glass, tiles, fixtures, and floors; use solvents as permitted.
5. Joinery Inside/Out: Vacuum and wipe inside cabinets, drawers, wardrobes; clean shelves and rails.
6. Kitchen: Clean benchtops, splashbacks, cupboards, sink & tapware; polish stainless steel; detail appliances.
7. Bathrooms: Scrub and de-scale tiles, grout, showers, tubs; clean vanities, mirrors; disinfect toilets and floor edges.
8. Windows (Internal): Wash panes, detail edges, clean tracks, frames, and flyscreens; remove silicone haze.
9. Lighting & Electrical: Dust fittings, wipe switches, power points, and exhaust fans; replace diffusers after clean.
10. Doors & Woodwork: Wipe doors, jambs, architraves, skirting boards; remove marks and fingerprints.
11. Floors – Hard Surfaces: Vacuum, mop; machine scrub or buff where required; remove grout haze from tiles.
12. Floors – Carpets: Power vacuum; arrange steam clean if required by client/handover spec.
13. Garage & Storage: Sweep, remove dust from walls, shelves; clean roller door edges and remotes.
14. Balcony/Patio: Sweep, wash floors; clean glass balustrades and sliding door tracks.
15. Exterior Entries: Spot clean external doors, letterbox, and porch lights.
16. Stage 2 – Detail Clean: Repeat dusting; polish glass and stainless; spot clean walls; rectify defects list.
17. Stage 3 – Handover Clean: Final vacuum/mop, window sparkle pass, fragrance neutralisation; remove tags.
18. Waste Management: Segregate recyclable packaging; remove site rubbish as arranged.
19. QA Checklist: Complete room-by-room signoff; report defects/damage to site manager.
20. Safety: Use PPE, ladders and chem handling per SWMS; maintain clear access and signage.
