

Exterior Window Cleaning Checklist

1. Site Safety & Access Plan: Assess heights, ground conditions; set signage and barriers.
2. Dry Dusting: Brush frames, screens, and tracks to remove debris.
3. Screen Care: Remove, wash and rinse flyscreens; allow to dry; reinstall.
4. Pre-Rinse: Wet glass and frames to loosen grime.
5. Detergent Wash: Apply glass solution with applicator; clean edges and corners.
6. Squeegee Pass: Use proper technique; wipe blade between strokes.
7. Detailing: Dry edges and sills; remove drips.
8. Frames & Sills: Wipe and polish frames; clean weep holes.
9. Tracks: Scrub and vacuum tracks; lubricate sliders.
10. Stain Removal: Treat mineral deposits, water spots, silicone haze.
11. High-Reach Poles: Use water-fed pole system for height access.
12. Glass Balustrades: Wash and squeegee both sides.
13. Skylights & Awnings: Clean exterior surfaces where safe.
14. Weather Watch: Avoid conditions causing streaking.
15. Final Inspection: Check from inside; touch-up if needed.
16. Cleanup: Rinse surrounding areas; pack and secure equipment.
17. Photo Documentation: Before/after shots for records.
18. Risk Controls: Use ladder stabilisers, harness, anchors.
19. Client Sign-Off: Walkthrough and recommendations.
